Convert the following diagram to Relations using SQL

CREATE TABLE Team(
   tname :char(100),
   color   :char(100),
   nickname: char(100),
   PRIMARY KEY (tname)
);

CREATE TABLE Player(
   pname: char(100),
   favno: integer,
   position: char(100),
   PRIMARY KEY (pname)
);

CREATE TABLE Plays (
   tname: char(100) NOT NULL,
   pname: char(100),
   number: integer,
   PRIMARY KEY (pname),
   FOREIGN KEY (tname)
     REFERENCES Team,
   FOREIGN KEY (pname)
     REFERENCES Player
);
